- Sunshield cap
- For Topicon MDT665
- Power button access
- Enhanced display visibility

The CAP-665-02 is a sunshield cap for the Topicon MDT665. It improves display visibility in bright light and is designed for professional mobile applications.

In this version, only the power button remains accessible. This provides focused operability while keeping the front area more protected.

A suitable choice for installations where reduced button access is preferred.

Compatible with: Topicon MDT665
