- MDT665 cradle accessory
- Waterproof connector
- Rugged installation
- Compact integration

The CRD665-CAB is a cradle accessory for the Topicon MDT665 and is designed for rugged installations with a waterproof connector. It is well suited to applications where a durable connection and clean integration are important.

Its compact design allows easy integration into vehicle or workplace installations. The waterproof connector supports use in demanding environments.

A suitable addition for professional MDT665 deployments.

**Compatible with:** Topicon MDT665
