- BMW-style connector
- 12-24 V vehicle input
- For MDT1065 installations
- L-shape cable system

The CAB-865-BMW is a vehicle power cable with BMW-style connector for use with the basic L-shape cable system. It supports a 12 to 24 V vehicle input and provides a practical in-vehicle power solution for compatible MDT1065 installations.

It is ideal when a simple powered connection is needed for mobile docking or charging setups in vehicles.

**Compatible with:** Topicon MDT1065
